Negotiations begin; UMPNC stands strong on not eroding contract

Negotiations commenced today as the parties continued working on non-economic issues. UMPNC continued with its position to not erode the power of the contract with concessions proposed by the employer including reductions in incremental PTO and harsher punishment for attendance (problem solving meetings).

Negotiations are scheduled to continue every day this week, and we ask that you continue showing your overwhelming support by wearing your buttons, wear red and stand strong!

We are the people who help make U of M a great hospital. It's time Management remembers that and acts accordingly! Prepare to defend your contract!
